Medical Conditions Policy

Supporting Pupils with Special Medical Needs

This policy has been developed in line with the Department for Education's statutory guidance released in April 2014 (updated 11th December 2015) – "Supporting pupils at school with medical conditions" under a statutory duty from section 100 of the Children and Families Act 2014.

For pupils who have medical conditions that require EHC plans, compliance with the SEND code of practice 2015 and part 3 of the Children and Families Act 2014 will ensure compliance with this guidance with respect to those children.

Introduction

Stanley Crook Primary School wishes to ensure that pupils with medical conditions receive appropriate care and support at school. All pupils have an entitlement to a full time curriculum or as much as their medical condition allows. Stanley Crook Primary School places a clear emphasis on meeting the needs of pupils with SEN and disabilities, also including pupils with medical conditions.

The Children and Families Act 2014, from September 2014, places a duty on schools to make arrangements for children with medical conditions. **Pupils with special medical needs have the same right of admission to school as other children and cannot be refused admission or excluded from school on medical grounds alone.** Teachers and other school staff in charge of pupils have a common law duty to act in loco parentis and may need to take swift action in an emergency. This duty also extends to teachers leading activities taking place off the school site and could extend to a need to administer medicine.

The prime responsibility for a child's health lies with the parent who is responsible for the child's medication and should work with the school to ensure staff have all the information required to ensure the safety and well-being of the child. The school takes advice and guidance from the Durham County Council Medicines in Schools Handbook and Resource File which encourages self- administration of medication when possible. Contact details for our School Nurse can be found in the school prospectus, which also states a copy of this policy is available to parents.

Aims

Stanley Crook Primary School aims to:

- assist parents in providing medical care for their children;
- educate staff and children in respect of special medical needs;
- adopt and implement the LA policy of Medication in Schools;
- arrange training for volunteer staff to support individual pupils;
- liaise as necessary with medical services in support of the individual pupil;
- ensure access to full education if possible.
- monitor and keep appropriate records.

Equal Opportunities

Stanley Crook Primary School is clear about the need to actively support pupils with medical conditions to participate in school trips and visits, or in sporting activities, and not prevent them from doing so. The school will consider what reasonable adjustments need to be made to enable these pupils to participate fully and safely on school trips, visits and sporting activities.

Risk assessments will be carried out so that planning arrangements take account of any steps needed to ensure that pupils with medical conditions are included. In doing so, pupils, their parents and any relevant healthcare professionals will be consulted.

The school believes that pupils with medical needs should be enabled to have full attendance and receive necessary proper care and support.

The school accepts all employees have rights in relation to supporting pupils with medical needs as follows:

- receive appropriate training;
- work to clear guidelines;
- have concerns about legal liability;
- bring to the attention of management any concern or matter relating to supporting pupils with medical needs.

Day trips, residential visits and sporting activities

Unambiguous arrangements should be made and be flexible enough to ensure pupils with medical conditions can participate in school trips, residential stays, sports activities and not prevent them from doing so unless a clinician states it is not possible. To comply with best practice risk assessments should be undertaken, in line with H&S executive guidance on school trips, in order to plan for including pupils with medical conditions. Consultation with parents, healthcare professionals etc. on trips and visits will be separate to the normal day-to-day IHP requirements for the school day.

Key Roles & Responsibilities

The Local Authority (LA)

The LA is responsible for;

- Promoting co-operation between relevant partners regarding supporting pupils with medical conditions.
- Providing support, advice /guidance and training to schools and their staff to ensure Individual Healthcare Plans (IHP) are effectively delivered.
- Working with schools to ensure pupils attend full-time or make alternative arrangements for the education of pupils who need to be out of school for fifteen days or more due to a health need and who otherwise would not receive a suitable education.

The Governing Body

The Governing Body of Stanley Crook Primary School is responsible for:

- Ensuring arrangements are in place to support pupils with medical conditions.
- Ensuring the policy is developed collaboratively across services, clearly identifies roles and responsibilities and is implemented effectively.
- Ensuring that the Supporting Pupils with Medical Conditions Policy does not discriminate on any grounds including, but not limited to, protected

characteristics: ethnicity/national/ origin, religion or belief, sex, gender reassignment, pregnancy & maternity, disability or sexual orientation.

- Ensuring the policy covers arrangements for pupils who are competent to manage their own health needs.
- Ensuring that all pupils with medical conditions are able to play a full and active role in all aspects of school life, participate in school visits / trips/ sporting activities, remain healthy and achieve their full potential.
- Ensuring that relevant training is delivered to a sufficient number of staff who will have responsibility to support children with medical conditions and that they are signed off as competent to do so. Staff to have access to information, resources and materials.
- Ensuring written records are kept of, any and all, medicines administered to pupils.
- Ensuring the policy sets out procedures in place for emergencies.
- Ensuring the level of insurance in place reflects the level of risk.
- Handling complaints regarding this policy as outlined in the school's Complaints Policy.

The Headteacher/Senior Leadership Team (SLT)

The Headteacher/SLT are responsible for;

- Ensuring the policy is developed effectively with partner agencies and then making staff aware of this policy.
- The day-to-day implementation and management of the Supporting Pupils with Medical Conditions Policy and Procedures of Stanley Crook Primary School.
- Liaising with healthcare professionals regarding the training required for staff.
- Identifying staff who need to be aware of a child's medical condition.
- Developing Individual Healthcare Plans (IHPs).
- Ensuring a sufficient number of trained members of staff are available to implement the policy and deliver IHPs in normal, contingency and emergency situations.
- If necessary, facilitating the recruitment of staff for the purpose of delivering the promises made in this policy.
- Ensuring more than one staff member is identified, to cover holidays / absences and emergencies.
- Ensuring the correct level of insurance is in place for teachers who support pupils in line with this policy.
- Continuous two way liaison with school nurses and school in the case of any child who has or develops an identified medical condition.
- Ensuring confidentiality and data protection.
- Assigning appropriate accommodation for medical treatment/ care.
- Considering the purchase of a defibrillator.
- Voluntarily holding 'spare' salbutamol asthma inhalers for emergency use.

Staff members

Staff members are responsible for:

- Taking appropriate steps to support children with medical conditions and familiarising themselves with procedures which detail how to respond when they become aware that a pupil with a medical condition needs help.
- Knowing where controlled drugs are stored and where the key is held.
- Taking account of the needs of pupils with medical conditions in lessons.

- Undertaking training to achieve the necessary competency for supporting pupils with medical conditions, with particular specialist training if they have agreed to undertake a medication responsibility.
- Allowing inhalers, adrenalin pens and blood glucose testers to be held in an accessible location, following DfE guidance.

School Nurse

School nurses are responsible for:

- Collaborating on developing an IHP in anticipation of a child with a medical condition starting school.
- Notifying the school when a child has been identified as requiring support in school due to a medical condition at any time in their school career.
- Supporting staff to implement an IHP and then participate in regular reviews of the IHP. Giving advice and liaison on training needs.
- Liaising locally with lead clinicians on appropriate support. Assisting the Headteacher in identifying training needs and providers of training.

Parents and Carers

Parents and carers are responsible for;

- Keeping the school informed about any new medical condition or changes to their child/children's health.
- Participating in the development and regular reviews of their child's IHP.
- Completing a parental consent form to administer medicine or treatment before bringing medication into school.
- Providing the school with the medication their child requires and keeping it up to date including collecting leftover medicine.
- Carrying out actions assigned to them in the IHP with particular emphasis on, they or a nominated adult, being contactable at all times.

Pupils

Pupils are responsible for:

- Providing information on how their medical condition affects them.
- Contributing to their IHP
- Complying with the IHP and self-managing their medication or health needs including carrying medicines or devices, if judged competent to do so by a healthcare professional and agreed by parents.

Expectations

It is expected that:

- Parents will be encouraged to co-operate in training children to self-administer medication if this is practicable (eg. inhalers) and that members of staff will only be asked to be involved if there is no alternative;
- Where parents have asked the school to administer the medication for their child they must ask the pharmacist to supply any such medication to be dispensed in a separate container, containing only the quantity required for school use. The prescription and dosage regime should be typed or printed clearly on the outside. The name of the pharmacist should be visible. Any medications not presented properly will not be accepted by school staff. Pupils should not bring in their own medicine. This should be brought into school by the parent/carer and will need to be collected by a parent/carer at the end of the school day.

- That employees will consider carefully their response to requests to assist with the giving of medication or supervision of self-medication and that they will consider each request separately.
- The school will liaise with the School Health Service for advice about a pupil's special medical needs, and will seek support from the relevant practitioners where necessary and in the interests of the pupil.
- Any medicines brought into school by the staff e.g. headache tablets, inhalers for personal use should be stored in an appropriate place and kept out of the reach of the pupils. Any staff medicine is the responsibility of the individual concerned and not the school.

Training of Staff

- Newly appointed teachers, supply or agency staff and support staff will receive training on the 'Supporting Pupils with Medical Conditions' Policy as part of their induction.
- The clinical lead for each training area/session will be named on each IHP.
- No staff member may administer prescription medicines or undertake any healthcare procedures without undergoing training specific to the condition and being signed off as competent.
- School will keep a record of medical conditions supported, training undertaken and a list of teachers qualified to undertake responsibilities under this policy.
- They will notify Health & Safety DCC, and Risk, Insurance & Governance Manager, DCC.

Medical conditions register/list

- Schools admissions forms should request information on pre-existing medical conditions. Parents must have easy pathway to inform school at any point in the school year if a condition develops or is diagnosed. Consideration could be given to seeking consent from GPs to have input into the IHP and also to share information for recording attendance.
- A medical conditions list or register should be kept, updated and reviewed regularly by the nominated member of staff. Each class / form tutor should have an overview of the list for the pupils in their care, within easy access.
- Supply staff and support staff should similarly have access on a need to know basis. Parents should be assured data sharing principles are adhered to.
- For pupils on the medical conditions list key stage transition points meetings should take place in advance of transferring to enable parents, school and health professionals to prepare IHP and train staff if appropriate.

Individual Healthcare Plans (IHPs)

- Where necessary (Head teachers will make the final decision) an Individual Healthcare Plan (IHP) will be developed in collaboration with the pupil, parents or carers, Headteacher, Special Educational Needs Coordinator (SENCO) and medical professionals.
- IHPs will be easily accessible to all relevant staff, including supply/agency staff, whilst preserving confidentiality. Staffrooms are inappropriate locations under Information Commissioner's Office (ICO) advice for displaying IHP as visitors /parent helpers etc. may enter. If consent is sought from parents, a photo and instructions may be displayed.
- In the case of conditions with potential life-threatening implications the information should be available clearly and accessible to everyone.

- Plans will be reviewed at least annually, or earlier if there is evidence that the pupil's needs have changed.
- Plans will be developed with the pupil's best interests in mind and will set out what needs to be done, when and by whom.
- Not all pupils with a medical condition will require an IHP. It will be agreed with a healthcare professional and the parents when an IHP would be inappropriate or disproportionate. This will be based on evidence. If there is not a consensus, the Headteacher will make the final decision.
- Plans will be drawn up in partnership with the school, parents and a relevant healthcare professional, such as the school nurse, specialist or paediatrician, who can best advise on the pupil's specific needs. The pupil will be involved wherever appropriate.
- IHPs will be linked to, or become part of, any statement of special educational needs (SEN) or education, health and care (EHC) plan. If a pupil has SEN but does not have a statement or EHC plan, the SEN will be mentioned in the IHP.
- The level of detail in the plan will depend on the complexity of the child's condition and how much support is needed. The governing body and relevant staff at Stanley Crook Primary School will consider the following when deciding what information to record on IHPs:
 - The medical condition, its triggers, signs, symptoms and treatments
 - The pupil's resulting needs, including medication (dose, side effects and storage) and other treatments, time, facilities, equipment, testing, access to food and drink where this is used to manage their condition, dietary requirements and environmental issues, e.g. crowded corridors, travel time between lessons
 - Specific support for the pupil's educational, social and emotional needs. For example, how absences will be managed, requirements for extra time to complete exams, use of rest periods or additional support in catching up with lessons, counselling sessions
 - The level of support needed, including in emergencies. If a pupil is self-managing their medication, this will be clearly stated with appropriate arrangements for monitoring
 - Who will provide this support, their training needs, expectations of their role and confirmation of proficiency to provide support for the pupil's medical condition from a healthcare professional, and cover arrangements for when they are unavailable
 - Who in the school needs to be aware of the pupil's condition and the support required
 - Arrangements for written permission from parents and the Headteacher for medication to be administered by a member of staff, or self-administered by the pupil during school hours
 - Separate arrangements or procedures required for school trips or other school activities outside of the normal school timetable that will ensure the pupil can participate, e.g. risk assessments
 - Where confidentiality issues are raised by the parent/pupil, the designated individuals to be entrusted with information about the pupil's condition
 - What to do in an emergency, including who to contact, and contingency arrangements

Managing medicines

- Prescription and non-prescription medicines will only be administered at school:
 - When it would be detrimental to the pupil's health or school attendance not to do so **and**
 - Where we have parents' written consent
- Pupils will not be given medicine containing aspirin unless prescribed by a doctor.
- Anyone giving a pupil any medication (for example, for pain relief) will first check maximum dosages and when the previous dosage was taken. Parents will always be informed.
- The school will only accept prescribed medicines that are:
 - In-date
 - Labelled
 - Provided in the original container, as dispensed by the pharmacist, and include instructions for administration, dosage and storage
- The school will accept insulin that is inside an insulin pen or pump rather than its original container, but it must be in date.
- All medicines will be stored safely. Pupils will be informed about where their medicines are at all times and be able to access them immediately. Medicines and devices such as asthma inhalers, blood glucose testing meters and adrenaline pens will always be readily available to pupils and not locked away.
- Medicines will be returned to parents to arrange for safe disposal when no longer required.

Unacceptable practice

School staff should use their discretion and judge each case individually with reference to the pupil's IHP, but it is generally not acceptable to:

- Prevent pupils from easily accessing their inhalers and medication, and administering their medication when and where necessary
- Assume that every pupil with the same condition requires the same treatment
- Ignore the views of the pupil or their parents
- Ignore medical evidence or opinion (although this may be challenged)
- Send children with medical conditions home frequently for reasons associated with their medical condition or prevent them from staying for normal school activities, including lunch, unless this is specified in their IHPs
- If the pupil becomes ill, send them to the school office or medical room unaccompanied or with someone unsuitable
- Penalise pupils for their attendance record if their absences are related to their medical condition, e.g. hospital appointments
- Prevent pupils from drinking, eating or taking toilet or other breaks whenever they need to in order to manage their medical condition effectively
- Require parents, or otherwise make them feel obliged, to attend school to administer medication or provide medical support to their pupil, including with toileting issues. No parent should have to give up working because the school is failing to support their child's medical needs
- Prevent pupils from participating, or create unnecessary barriers to pupils participating in any aspect of school life, including school trips, e.g. by requiring parents to accompany their child
- Administer, or ask pupils to administer, medicine in school toilets

Emergency procedures

Staff will follow the school's normal emergency procedures (for example, calling 999). All pupils' IHPs will clearly set out what constitutes an emergency and will explain what to do.

If a pupil needs to be taken to hospital, staff will stay with the pupil until the parent arrives, or accompany the pupil to hospital by ambulance.

Training

Staff who are responsible for supporting pupils with medical needs will receive suitable and sufficient training to do so.

The training will be identified during the development or review of IHPs. Staff who provide support to pupils with medical conditions will be included in meetings where this is discussed.

The relevant healthcare professionals will lead on identifying the type and level of training required and will agree this with the Headteacher. Training will be kept up to date.

Training will:

- Be sufficient to ensure that staff are competent and have confidence in their ability to support the pupils
- Fulfil the requirements in the IHPs
- Help staff to have an understanding of the specific medical conditions they are being asked to deal with, their implications and preventative measures

Healthcare professionals will provide confirmation of the proficiency of staff in a medical procedure, or in providing medication.

All staff will receive training so that they are aware of this policy and understand their role in implementing it, for example, with preventative and emergency measures so they can recognise and act quickly when a problem occurs. This will be provided for new staff during their induction.

Record keeping

The governing board will ensure that written records are kept of all medicine administered to pupils. Parents will be informed if their pupil has been unwell at school.

IHPs are kept in a readily accessible place which all staff are aware of.

Complaints

Parents with a complaint about their child's medical condition should discuss these directly with the SENCO/Headteacher in the first instance. If the SENCO/Headteacher cannot resolve the matter, they will direct parents to the school's complaints procedure.

Monitoring arrangements

This policy will be reviewed and approved by the governing board every two years.

Access and Review of Policy

The Medical Conditions Policy will be accessible to all staff and the community through the school's website. Hard copies can be obtained from the school office. This policy will be reviewed on a two yearly cycle.
