

		Autumn		Spring		Summer	
English: Reading, Writing, Spelling and V, G, P	Word reading	Pupils should be taught to: • apply their growing knowledge of root words, prefixes and suffixes (morphology and etymology), as listed in English Appendix 1, both to read aloud and to understand the meaning of new words that they meet. Teaching of Word List (Year 5 and Year 6) - p.61, NC English PoS					
	Language Comprehension	Pupils should be taught to: • maintain positive attitudes to reading and understanding of what they read by: • continuing to read and discuss an increasingly wide range of fiction, poetry, plays, non-fiction and reference books or textbooks • reading books that are structured in different ways and reading for a range of purposes • increasing their familiarity with a wide range of books, including myths, legends and traditional stories, modern fiction, fiction from understand our literary heritage, and books from other cultures and traditions • recommending books that they have read to their peers, giving reasons for their choices • identifying and discussing themes and conventions in and across a wide range of writing • making comparisons within and across books • learning a wider range of poetry by heart • preparing poems and plays to read aloud and to perform, showing understanding through intonation, tone and volume so that the meaning is clear to an audience • understand what they read by: • checking that the book makes sense to them, discussing their understanding and exploring the meaning of words in context • asking questions to improve their understanding • drawing inferences such as inferring characters' feelings, thoughts and motives from their actions, and justifying inferences with evidence • predicting what might happen from details stated and implied • summarising the main ideas drawn from more than one paragraph, identifying key details that support the main ideas • identifying how language, structure and presentation contribute to meaning • discuss and evaluate how authors use language, including figurative language, considering the impact on the reader • distinguish between statements of fact and opinion • retrieve, record and present information from non-fiction • participate in discussions about books that are read to them and those they can read for themselves, building on their own and others' ideas and challenging views courteously • explain and discuss their understanding of what they have read, including through formal presentations and debates, maintaining a focus on the topic and using notes where necessary • provide reasoned justifications for their views.					
	Text Types	Texts include: wide range of fiction (including fairy stories, myths and legends, Traditional Stories, modern fiction, fiction from our literary heritage and books from other cultures and traditions), poetry, plays, non-fiction texts and reference books / text books. CLPE, Accelerated reader/ Guided reading/ Comprehension activities/ 1:1 reading – ongoing throughout the year.					
		Picture Books (Y5/6)	Non-Fiction (Y5/6)	Building Stamina (Y5/6)	Non-Fiction (Y5/6)	Contemporary Fiction (Y5/6)	
	CLPE	The Journey By F. Hanna	Ice Trap: Shackleton's Journey by Meredith Hooper and M. P. Robertson	Skellig By David Almond	Suffragette: The Battle for Equality By David Roberts	Cosmic by Frank Cottrell Boyce	
Maths	Adapted from White Rose Maths: Number and Place Value, Addition and Subtraction, Multiplication & Division, Fractions (decimals and percentages), Measures, Geometry- Properties of Shape, Geometry- Position and Direction, Statistics, Algebra, Ratio and Proportion						
Science	Living Things and their Habitats	Electricity	Light	Earth and Space	Animals including Humans	Evolution and Inheritance	
	Working Scientifically taught throughout the year: During years 5 and 6, pupils should be taught to use the following practical scientific methods, processes and skills through the teaching of the programme of study content: • planning different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary • taking measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate • recording data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs • using test results to make predictions to set up further comparative and fair tests • reporting and presenting findings from enquiries, including conclusions, causal relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations • identifying scientific evidence that has been used to support or refute ideas or arguments.						
Computing	Data and information – flat file databases	Creating Media – Introduction to vector graphics	Programming A – Selection in physical computing	Data and information – introduction to spreadsheets	Creating media – 3d modelling	Programming B – Selection in quizzes
