Well Being Policy (Staff)

The emotional and physical wellbeing of all staff is important to Stanley Crook Primary School. At our school, not only does every child matter but we also believe every person matters.

The actions within this policy have 5 key aims:

- **To minimise the harmful effects of stress.**
- **To provide effective support for all staff.**
- **To help each individual to achieve an appropriate work-life balance.**
- **To take a positive and understanding approach to the management of stress in line with current good practice.**
- **To respect confidentiality.**

As a school, we promote work life balance. We seek advice from outside support agencies such as occupational health. We have policies and procedures to deal with bullying, harassment and issues of personal safety. We seek opportunities to care for the staff through initiatives and through discussions within performance and development reviews.

We have a termly staff well-being survey; please see the appendix for examples. This survey is anonymous with staff being encouraged to confidentially speak to SLT if they require support.

The main part of this policy is based around the Health and Safety Executive Management Standards. Each section responds to a standard and how the school carries out its duty of care.

Demands

The Standard states that “Employees indicate that they are able to cope with the demands of their jobs and systems are in place locally to respond to any individual concerns”.

Within Stanley Crook Primary School, every member of staff is given adequate and achievable tasks which suit their agreed hours of work.

Individuals have a job description which details the job demands and this is part of the recruitment procedure before agreed contracts are signed. Appointments are made to match the skills of the person with the job and adjustments are made with the agreement of all. No member of staff will be expected to carry out duties which are beyond their capabilities, unless these are agreed as a development strategy.

Concerns about the work environment and its impact upon an employee's ability to satisfactorily complete duties are shared with either a line manager or senior member of staff.

Every attempt is made to rectify the issue.

Control

The Standard states that “Employees indicate that they are able to have a say about the way they do their work and systems are in place locally to respond to any individual concerns”.

Within Stanley Crook Primary School, every member of staff has a defined role which, due to the nature of a school, often has a fixed timescale for completion. Initiative is actively encouraged and as a school we welcome staff to be free thinkers and extend practice beyond the expected. The school has a Continuing Professional Development Policy which details the means by which all staff are encouraged to extend their skills and knowledge. Formal access to courses and training is through individual performance reviews and through audits of subject needs.

Other courses may be available but they are more closely related to budget availability.

As a school, we are open to the changing face of employment structure and the relationship between home and work life. We make every effort to ensure that an employees working pattern suits their needs.

Support

The Standard states that “Employees indicate that they receive adequate information and support from their colleagues and superiors and systems are in place locally to respond to any individual concerns”.

Within Stanley Crook Primary School, we have an active support structure within the staff which has no formal basis but is generated from mutual respect. However, should this structure break down, the management structure has a wide base and a member of the SLT is always available to support staff and attempt to rectify situations.

The school is part of the Durham Local Authority Well Being Service which provides a confidential counselling service for staff. This service is confidential and appointments are made by individuals when they need support.

The school encourages staff to discuss work and provide each other with constructive feedback. Although we have formal observations, the staff have agreed (as part of the Staff Appraisal Policy 2019) that informal observation and comment is still part of the school culture.

Stanley Crook Primary is a supportive school and this is reflected in the personal and private leave procedure which operates when necessary.

Relationships

The Standard states that “Employees indicate that they are not subjected to unacceptable behaviours, e.g. bullying at work, and systems are in place locally to respond to any individual concerns”.

Within Stanley Crook Primary School, we promote positive relationships within the staff and we adhere to the principles of growth mindset, which is applicable to adults and children alike. We encourage everyone to report any incidents of bullying or unacceptable behaviour. These will then be fully investigated by an appropriate member of the SLT and a governor, if required.

Role

The Standard states that “Employees indicate that they understand their role and responsibilities and systems are in place locally to respond to any individual concerns”.

Within Stanley Crook Primary School, we actively ensure that staff never have conflicting roles. This is achieved through our staff structure and careful planning of appointments. Upon appointment, staff have a job description which outlines the key roles and expectations of the job. New staff are provided with an appropriate mentor. The staff mentors may or may not be the line manager or performance review manager. Should there be any doubts about the role, or role expectations, the Headteacher should be consulted.

As a school, we have many influences which impact upon our working structure. This may result in short notice changes. During periods of role change, staff will be kept up to date through staff briefings and individual meetings.

Change

The Standard states that “Employees indicate that the organisation engages them frequently when undergoing an organisational change and systems are in place locally to respond to any individual concerns”.

Within Stanley Crook Primary School, we seek to involve all appropriate staff in consultations regarding change. We provide information as soon as possible and will call staff meetings if they are relevant. Staff are always aware that consultations are a means by which we gather views and are not always a mechanism for changing policy or decision.

When changes do take place, timescales will be published and details will be available showing the impact upon the working lives of the staff.

Support will be provided during the process and outside support agencies will be signposted.
